Communicated by Temur Kutsia kutsia@RISC.UNI-LINZ.AC.AT

RISC-Linz, a research institute at the Johannes Kepler University, Austria, offers opportunities to researchers to obtain access to its infrastructure and facilities. Access is provided through the project SCIENCE (<http://www.symbolic-computation.org>) within the 6th Framework Programme of the European Commission.

What we offer.

Within this programme the users can:

- visit RISC-Linz for several weeks, work with and get an advice from the members of the institute on applications of symbolic computation in users work;
- get remote access to the the computing infrastructure and facilities of the institute.

Applications can be submitted any time. For successful applicants, access is free of charge. We provide scientific, technical, administrative, and logistic support, including travel and living expenses.

Who can benefit.

Students and researchers who are interested in using symbolic computation in their work.

For more information and the application procedure please visit the program web page at

<http://www.risc.uni-linz.ac.at/projects/science/access>.
